

# Notarisation Resources

This thread has been locked by a moderator.

**IMPORTANT** `altool` is deprecated for the purposes of notarisation and will stop working in Fall 2023 [1]. If you’re currently notarising with `altool`, switch to `notarytool` now. For more information about `notarytool`, watch WWDC 2021 Session 10261 [Faster and simpler notarization for Mac apps](#) or read [Customizing the Notarization Workflow](#).

278

Many notarisation issues are actually code signing or trusted execution issue. For more on those topics, see [Code Signing Resources](#) and [Trusted Execution Resources](#).
