Local Network Privacy FAQ-8

⊘ This thread has been locked by a moderator.

This post is part of the Local Network Privacy FAQ.

How do I explicitly trigger the local network privacy alert?

There is no API to explicitly bring up the local network privacy alert (r. 69157424). However, you can bring it up implicitly by sending traffic to a local network address. For an example of how you might do this, see Triggering the Local Network Privacy Alert.
